

Systematic portfolio management.
Built for practitioners who know what good looks like.

Vektor is a systematic listed equity portfolio management platform for boutique DPMs, independent wealth managers, and family offices. One product. Three delivery models. Honest by design.

THE PROBLEM

- Bloomberg Terminal ~US\$32,000/seat/year. Built for sell-side research, not systematic portfolio construction.
- Signal application, rebalancing, and audit trail generation are manual, error-prone, and compliance-fragile.
- Implementation failures are endemic. The same projects fail for the same reasons. Nobody publishes it. We did.

WHAT VEKTOR DOES

10,000 portfolio configurations per strategy

99.94% capital allocation efficiency

Tier 1 OpenWealth API credential — CEO, live EMEA + APAC

Full audit trail on every decision. Multi-custodian mandate management. IBKR integrated. RBAC maker/checker.

THREE DELIVERY MODELS

Vektor : Boutique

— Direct AUM-tiered subscription. From US\$18,000/yr.

Vektor : House

— Institutional via Alloy Partners. Stage 1 open now.

Vektor : Wrapped

— Licensed via custodian banks for EAM clients.

"Honest by design."

10 published papers on why implementations fail.

THE RAISE

Target:

US\$2M — US\$2.5M

Pre-money:

US\$9M — US\$10M

Structure:

Quiet raise · 3–5 investors · boutique wealth practitioners or fintech-experienced angels

Compatibility:

Stealth-compatible · both founders commit full-time on close

Runway:

18–24 months to Series A milestone

MARKET

- Singapore — 2,000+ SFOs (MAS, 2024). Primary market.
- Switzerland — FinIA compliance. OpenWealth established. Near-term.
- UK — FCA regulatory opinion underway.
- Rest of Europe, Channel Islands, SE Asia, DIFC/UAE — pipeline.

~US\$15M ARR at 10% penetration (SG, CH, UK only — pipeline markets excluded). Institutional roadmap extends beyond Vektor — disclosed under NDA.

COMPETITIVE POSITION

	Annual cost	What you get
Vektor : Boutique Entry	US\$18,000/yr	Full platform
Bloomberg Terminal	~US\$32,000/yr	Market data only
Bloomberg PORT	+US\$6–25K/yr	Analytics only, no exec

TEAM

CEO: three decades inside institutional portfolio management technology — vendor, solution architect, programme management for Global Tier 1 banks. Production OpenWealth credentials EMEA + APAC.

CTO: two decades of institutional financial technology architecture — cloud-native core banking, digital challenger bank launches. Platform built to compliance standards from first principles.

Founding partnership: approximately a decade.
