

INVESTPUPPY — DOCUMENT SUITE

v2.0 Change Log

This document records all content changes required to bring the existing document suite to v2.0 specification. New documents (vk5-proof-partners.pdf, ip-alloy-partners.pdf, ip-three-delivery-models-v2.pdf) have been built and included in this release. The 29 existing documents carry a v2.0 review banner and require content rebuilds using the build scripts in the repository before active distribution.

SUITE-WIDE CHANGES

Naming change — affects 14 documents, ~95 occurrences. "Founding Mandate Programme" is retired. Replacement: "Proof Partners" throughout. This is NOT a find-and-replace. Each occurrence requires contextual rewriting. The CTA "Enquire about Founding Mandate availability" becomes "Become a Proof Partner" throughout.

DOCUMENT	PRIORITY	CHANGES REQUIRED
vk5-founding-mandate-programme.pdf	COMPLETE REBUILD → vk5-proof-partners.pdf	47 occurrences. New filename, new reference code IP-PPR-260515-1.0. New opening framing: what it means to be a Proof Partner — commitment before proof, the partners are the proof. Fix: "permanent preferential pricing" → "preferential commercial terms locked for the duration". Complete voice rewrite.
vk5-faq.pdf	SUBSTANTIAL REWRITE	11 occurrences. Q10: remove "early-adopter programme", rewrite to Proof Partners framing. Q12: "permanently one tier below" → "preferential commercial terms locked for the duration, at one tier below the partner's current AUM tier, with Entry tier as the permanent floor". Q15: "Enquire about Founding Mandate" → "Enquire about Proof Partner availability". Consider adding reference to three delivery models and institutional enquiry path.
vk5-brochure.pdf	TERMINOLOGY FIX + NAMING	2 naming occurrences. CRITICAL TERMINOLOGY FIX: "10,000 simulations find the optimal portfolio subset" → "10,000 portfolio configurations find the optimal portfolio subset". Single caption, high visibility.

vk5-dd-navigation-guide.pdf	SUBSTANTIAL UPDATE	9 occurrences. Update programme reference code. Structural addition: delivery model orientation section. Guide currently assumes all readers are boutique-path prospects. Add opening section directing institutional readers to ip-three-delivery-models-v2.pdf. Add Alloy Partners document when built. Update "Founding Mandate Programme" references.
vk5-why-vektor.pdf	CONTEXTUAL REWRITES	7 occurrences. Founding Mandate summary on page 6 becomes Proof Partners summary — rewrite to reflect programme meaning, not just name.
vk5-at-a-glance.pdf	MINOR	2 occurrences. Naming update only.
vk5-first-90-days.pdf	MINOR + OUTSTANDING ITEM	2 occurrences. Naming update. OUTSTANDING: CEO/CTO naming — "our CEO and our CTO" — decision required before first Proof Partner signing. Add note that Alloy Partners engagement document is available separately.
vk5-wp09-risk-disclosure.pdf	CONTEXTUAL REWRITES	6 occurrences. "Live execution before first Founding Mandate client onboarded" → "before the first Proof Partner is onboarded". Consider: "99.94%+ efficiency in simulation testing" → "99.94%+ allocation efficiency in pre-live testing" for clarity.
vk5-wp07-technical-architecture.pdf	MINOR	3 occurrences. Naming update. IBKR simulation account references: retain as technically accurate architecture descriptions — these describe the brokerage connection state, not the portfolio construction methodology.

vk5-wp10-evaluating-performance.pdf	MINOR	3 occurrences. Naming update only.
vk5-wp01-quantitative-portfolio-construction.pdf	MINOR	1 occurrence. Single-line substitution.
vk5-wp06-audit-compliance.pdf	MINOR	1 occurrence. Single-line substitution.
vk5-wp08-ai-ml-philosophy.pdf	MINOR	1 occurrence. Single-line substitution.
ip-three-delivery-models-v5.pdf	REBUILT AS ip-three-delivery-models-v2.pdf	Distribution status changed: "not for general distribution" retired — now public. Added: Proof Partners section under Vektor : Boutique. Added: Alloy Partners section under Vektor : House. Updated: House commercial description to reflect staged/gated Alloy Partners pathway. Updated: version header and distribution note.

NEW DOCUMENTS IN v2.0

DOCUMENT	STATUS	DESCRIPTION
vk5-proof-partners.pdf	NEW BUILD	IP-PPR-260515-1.0. Rebuilt Proof Partners programme document. Full design, all content, v2.0 spec.
ip-alloy-partners.pdf	NEW BUILD	IP-ALP-260515-1.0. New Alloy Partners institutional development partnership document.
ip-three-delivery-models-v2.pdf	REBUILT PUBLIC	Updated delivery models reference. Public distribution. Proof Partners and Alloy Partners sections added.
CHANGE-LOG-v2.pdf	NEW	This document.

PACKAGING GAPS IDENTIFIED

Two documents confirmed missing from the v1 investpuppy-docs-final.zip: (1) vk5-what-vektor-is-not.pdf (IP-WVIN-260508-1.0) — referenced by DD Navigation Guide and website but absent from the zip. Locate in repository and add. (2) ip-three-delivery-models-v5.pdf — rebuilt as ip-three-delivery-models-v2.pdf in this release.
